Cressi reserves the right to make changes to the instrument without notice, based on the incessant technological upgrade of its components.
**GENERAL WARNINGS**

- Do not leave any packaging materials (plastic bags, cardboard boxes, etc.) within the reach of children as these can be hazardous.
- Before using the device, make sure that no products or components are damaged. If it is damaged, do not use the device and contact a qualified technician or your dealer.
- Do not try to repair the product but contact the Customer Service of Cressi.
- Contact skilled technical personnel or Cressi Customer Service in the event of failure.
- To prevent risk of overheating, keep the Interface away from sources of heat, such as heaters, thermostats, stoves, cookers, etc.
- The battery must always be replaced by adults only and with other batteries having the same characteristics as those indicated in these instructions.
- Dispose of used batteries in compliance with existing regulations. Improper use of the battery may cause fires, explosions or other hazardous events.

- Danger of ingestion: the battery must be re-placed by an adult in a place out of reach of children.
- Do not short circuit feed clamps.
- Always remove flat batteries from the product to avoid damages to the product by possible leakage.
- Do not use rechargeable batteries.

**Technical data:**

**System Requirements:**
- Android: compatibility with OS 7.0 and higher
- iOS: compatibility with OS 10.0 and higher
- Communication Technology: Bluetooth Low Energy
- Frequency band: 2.4-2.485GHz
- Transmission power: 2.51mW
- Power: Disposable and non-rechargeable 3V CR2032 battery
- Operating temperature: -10 °C + 45 °C
- Battery Life 2 Years (100 Download/Years)
If the disused appliance is collected correctly as separate waste, it can be recycled, treated and disposed of ecologically; this avoids a negative impact on both the environment and health, and contributes towards the recycling of the product’s materials. For further information regarding the waste disposal services available, contact your local waste disposal agency or the shop where you bought the appliance.

**THIS PRODUCT COMPLIES WITH EU DIRECTIVE 2006/66/EC AS AMENDED.**

The crossed-out wheeled bin symbol on the battery or its packaging, means that the batteries, at the end of their life, should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities, or otherwise returned to the dealer when purchasing new equivalent rechargeable or non-rechargeable batteries. Chemical symbols (Hg for mercury, Cd for cadmium, Pb for lead) printed beneath the crossed-out wheeled bin symbol indicate the type of substance contained in the battery. The user is responsible for taking the batteries to special waste disposal sites at the end of their life to allow for their processing and recycling.
The correct disposal of your old toy will help prevent potential negative consequences for the environment and human health and favor the recycling of the materials of which the product is made. Improper disposal of the product by the user may harm the environment and human health. For further information regarding the waste disposal services available, contact your local waste disposal agency or the shop where you bought the appliance.

DECLARATION OF COMPLIANCE
Cressi Sub hereby declares that this product is in conformity with the essential requirements and the related dispositions established by directive 1999/5/CE. A copy of the complete Declaration of Compliance can be consulted at: www.cressi.com. In accordance with the European Commission Decision N°2000/299/EC dated 06/04/2000, the frequency band used by this product has been harmonized for all EU Countries and therefore this is a Class 1 product which can be used in all European Community Countries. Cressi Sub reserves the right to change information provided in this manual at any time and without notice.

The reproduction, transmission, transcription or translation into another language, of any part and in any form of this manual is strictly prohibited without prior written consent from Cressi Sub.

WARRANTY
The product is guaranteed against any conformity defect in normal conditions of use as provided for by the instructions for use. The warranty shall not therefore apply in the case of damages caused by improper use, wear or accidental events. For the duration of warranty on conformity defects please refer to the specific provisions of national laws applicable in the country of purchase, where provided. (Cressi Sub declares the duration of the guarantee in two years).
The Cressi BT Interface is a device able to connect to your smartphone via BT or USB to download the data related to your diving (1).

1. Power on button, press it to activate the Interface.
2. Green led, it blinks when the Interface is on (every 3 seconds, 100 ms on).
3. Red led, represents the Interface activity in three different ways.
   - Case 1: waiting for connection (every second, 100 ms on)
   - Case 2: data download via BT (every 2,5 s, 100 ms on)
   - Case 3: data download via USB (always on)
Download the APP Cressi from Apple Store or Google Store and install it on your smartphone.

Put your Interface on your clock to recognize it by the InfraRed sensor (see 2).

Follow all the instructions to download your data.
To replace the battery, pry up one of the two hooking sides, as shown in the photo (3). Insert the new battery into the cover respecting the polarity. Reassemble the cover.
